In rounding off figures in several places fractions exceeding one-half have been reckoned as equivalent to one, and those equal to or less than one-half have been left out of consideration; in consequence a slight discrepancy may sometimes occur in additions and subtractions, especially in the case of sums of money.

Report on the General Administration of the KOLHAPUR PRINCIPALITY for the year 1900-1901.

PART II.

CHAPTER I. (POLITICAL).

THE year under report is the 7th of the administration of the affairs of the Principality by His Highness Sir Shri Shahu Chhatrapati Maharaja G.C.S.I.

The demise of Her Most Gracious Majesty the Queen-Empress.

2. The universally lamented event of the year was the sad demise of Her Most Gracious Majesty the late Queen-Empress.

As soon as the first bulletin conveying the unpleasant news of the serious aspect of Her Majesty's ailment, was received, prayers were offered at the celebrated shrine of the Goddess Ambabai, for the speedy recovery of the Royal Patient. Some of the subsequent bulletins brought a somewhat favourable account which raised some hope. The anxiety, however, was in no way lessened and at last the sad intelligence of Her Majesty's demise reached Kolhapur on the 23rd of January at 9-38 A. M. The profound grief which it caused not only to His Highness and His Highness' Sardars and Officers but to his subjects, all over the State can hardly be described. The Maharaja, immediately, sent the following telegram to the Political Agent, Kolhapur and S. M. Country :—

"Heard with most profound grief, the sad intelligence of the demise of Her Majesty Queen-Empress. Kindly arrange to convey by cablegram, most sincere and respectful sympathies to Royal Family at State expense".

All offices and schools were ordered to be closed as a mark of respect to the memory of the deceased Sovereign. The news very rapidly spread and cast a gloom over the whole State. Signs of mourning were to be seen in every direction. The beating of the auspicious drums was stopped, the State flags were hoisted halfmast and the old fashioned *dhals* (large tall banners) put up at the principal junctions of streets in the different quarters of the town were furled and removed. The schools and offices in the town continued to be closed for three days. The sad continuity was only broken for a while on the 25th February 1901, the day of His Most Gracious Majesty the King Emperor Edward VII's accession. On this occasion His Highness and the principal Officers and Sardars of the State assembled on the parade ground, to witness the parade of the Kolhapur Risala and Infantry, specially held in honour of the event. A salute of 101 guns was also fired at the time.

The 2nd of February, the day of the funeral, was observed with a strict solemnity as the day of deepest mourning. An extraordinary State Gazette was published the previous day, directing the closing of all offices and schools and places of general entertainment.

All business was stopped and the subjects of the State were directed to abstain from every sort of rejoicing. No compulsion was necessary. The high reverence and esteem of the people for their beloved Sovereign, prompted all their actions. From the Maharaja, down to the poorest labourer, every one shared the grief and joined in giving expression to it. In the afternoon His Highness accompanied by some of his Feudatories, Sardars and Officers assembled

FEUDATORY ESTATES, SARANJAMS, &c.

Plague made its appearance in a few villages here and there but it did not spread and soon yielded. The mortality on that account also was not heavy.

His Highness' tours.

6. During the year, His Highness visited Poona, Bombay and Mahableshwar and was able to make tours in the Districts, especially in the outlying parts of Kutkol and Raybag, where seeing the condition of the people after the scanty and insufficient rain-fall, he immediately gave orders for the opening of relief works.

Census of 1901.

7. On the first of March the fourth Census of the whole Principality was taken in conformity with the Imperial Census of India.

Changes in the personnel of the Administration.

8. Rao Saheb Bhaskarrao Jadhav, M.A., LLB., continued to be on special duty and was Assistant Plague and Famine Commissioner. In September he was made Special Census Officer, in addition to his duties. As the work of Census increased he was relieved of other work and carried on the work of the preliminary and final enumeration in Kolhapur Proper under the Chief Revenue Officer who was made Census Superintendent for the whole principality. Rao Saheb Jadhav was also made the Gazetted Officer for the purpose of forwarding by wire the provisional totals of the Census and for submitting the District summary for the whole of the Kolhapur Principality. He was also appointed Deputy Provincial Superintendent for Kolhapur and S. M. C. States to abstract and tabulate the results of the Census.

RELATIONS WITH FEUDATORY ESTATES, SARANJAMS, &c.

Political relations.

9. The usual statements, Appendices 1 to 4 (Consecutive Enclosures Nos. 1 to 4) furnishing information relating to Political relations, &c. are appended.

10. There are in all nine Feudatory Estates, Saranjams, &c. viz :—

7. Torgal.
8. Himmat Bahadar.
9. Sarlashkar Bahadar.

Of these Nos. 1, 2, 3, 5 and 6 were managed by their respective holders throughout the year under report. The holders of Nos. 4, 8 and 9 viz. the Senapati of Kapshi, the Himat Bahadar and Sarlaskar Bahadar were put in charge of the administration of their Estates: the last on the 21st of February 1901, and the first two on the 23rd of the same month, at Darbars held for the purpose at the old palace. His Highness the Chhatrapati Maharaja presided and some of the S. M. C. Chiefs, Feudatories, Sardars and principal Officers, as well as a number of European ladies and gentlemen of the station, attended the two Darbars. The three Jahagirdars were presented with *poshakhs* or honorary dresses, and swords and scals pertaining to their offices were given them. Addresses were read, by command of His Highness, suited to the occasion, which were replied to by the Jahagirdars, in loyal terms. Torgal alone remains now under the management of the Darbar, under the guaranteed supervision of the Political Agent. The question of putting the Senakhaskel of Torgal in charge of his Estate, has been referred to the Government of Bombay.

CHAPTER III.

PROTECTION.

Legislation.

40. THE Indian Census Act X of 1900 was introduced in the whole of the Kolhapur Principality with necessary changes.

Military.

Military force.

41. The Military establishments of the State consist of two divisions: (1) Kolhapur Infantry under a British Officer and (2) Red-coated Risala of His Highness' Body guard commanded by a Native Officer. Information about the strength and cost of these establishments is given in Appendix V (Consecutive Enclosure No. 17).

INFANTRY.

Strength and cost.

42. The total cost amounted to Rs. 88,114 against Rs. 91,420 the decrease being due to the fact that grain compensation was not required to be paid during the latter half of the year.

The number of marksmen in the regiment, as well as the figure of merit obtained in the musketry course, have risen from 116 and 61·44 to 162 and 64·25 respectively. The improvement is no doubt satisfactory. The drill and efficiency of the regiment is good and all of the 11 recruits, enlisted this year, passed their course of drill and musketry, and joined the force.

The health of the regiment was good. There were in all seven deaths, one of which, was from drowning.

The conduct of the regiment has been very good.

RED COATED RISALA.

Strength and cost.

43. The total strength at the end of the year was 156 and the cost of the force amounted to Rs. 45,878.

The conduct of the risala was satisfactory.

Police.

Strength and cost.

44. The total strength of the Police Force, in the Principality was 798 at the end of the year, against 977 of the preceding year. The decrease is solely due to the dismissal of the temporary staff, engaged on plague and famine duty and the removal of some punitive posts. The expenses of the force were Rs. 94,543 against Rs. 81,628. The increase is due to the payment of grain compensation during the greater part of the year. (For details Vide Appendix VI Consecutive Enclosure No. 18).

The largest diminution viz. 17 in the number of the police, is in the Parent State, which retained 551 police at the close of the year, against 721 of the preceding year. The number, however still exceeds, the permanent strength which is 503. The cost amounted to Rs. 72,728 against Rs. 61,044. Of the total number 189 were able to read and write and 119 under instruction.

45. The conduct of the force shows a slight improvement as the number of cases requiring punishment was 80 against 85 while 29 persons were rewarded with promotions. Conduct.

46. On account of the succession of bad years, the number of offences reported to the Police, increased to 1,292 from 861 of the previous year and 1,297 persons in all were arrested and put upon their trial. Of these 1,098 or 84·4 percent were convicted against 58·3 of the preceding year. This shows that the working of the police was satisfactory. (For further details Vide Appendix VII Consecutive Enclosure No. 19). Working of the Police.

47. The percentage of property recovered out of the stolen was 72·69 against 72·46 percent. The same percentage for State Proper is 71, which is satisfactory. (For further information see Appendix VIII Consecutive Enclosure No. 20). Stolen property.

48. The total number of crimes of all descriptions committed during the year amounted to 4,390 against 3,618. In all 7,924 persons against 7,299 were put upon their trial of which 3,021 or 41·4 percent were convicted and 580 against 1,453 remained awaiting trial. No one was sentenced to capital punishment and only three were sentenced to transportation. (For further particulars see Appendix IX Consecutive Enclosure No. 21). Cognizable and non-cognizable crimes.

49. The number of village police was stationary. The Patils of Lat and Shiradvad in the Ichalkaranji Estate were invested with powers under the Village Police Act. Village Police.

Criminal Justice.

50. The number of criminal courts, in the Principality at the close of 1900 was 57 against 58 of the preceding year. Besides the court of His Highness the Chhatrapati Maharaja and the Sessions Court of the Political Agent, Kolhapur and S. M. Country for exercising the residuary criminal jurisdiction over the higher Feudatories, there are two Sessions Judges in the State (proper) and the Chiefs of Vishalgad, Bavda, Kagal Senior, Ichalkaranji and Meherban Dattajirao Ghatge Sarjerao of Kagal Junior exercise limited powers of Sessions Judges. The number of Magistrates—stipendiary as well as honorary—was 48 at the close of 1900 as will be seen from the following table:— Number of Criminal Courts.

The powers were withdrawn about the end of the year under report. Mr. J. R. Savant B. A. attache to the Chief Revenue Office was invested with the powers of a Magistrate of the Second Class.

51. Altogether 7,924 persons came before the Magistrates, inclusive of the last year's balance of 1,455, of which the cases against 7,364 accused were disposed of leaving 580 persons, cases against whom were pending. The percentage of acquittals and discharges was 54 against 67·92 last year. (For further particulars see para. 48 ante and Appendices IX and X Consecutive Enclosure Nos. 21 and 22). 108. Messrs Hormusji Manikjee Bhivandiwala continued to hold the country liquor farm in the Kolhapur Territory including its Feudatory Estates till the 16th June 1900 when their licence was cancelled as they failed to pay the instalments. The farm was then directly managed by the State till the 31st October 1900 when it was taken up by Mr. Naoroji Framjee Ardesir for a period of 4 years and 9 months on condition of paying a fixed sum of Rs. 1,05,000 per annum exclusive of the charges amounting to Rs. 440 per month on account of rent of the Distillery buildings, furniture and the establishment.

Issue of liquor from the distillery.

109. During the year under report 20,203 gallons of liquor of 25° U. P. were issued from the Kolhapur Distillery. Of these 19,582 gallons against 21,392 in the preceding year were issued for sale in the Kolhapur Principality and 621 gallons against 580 were supplied free of duty to the Kurundwad State.

The reduction in consumption is due to the succession of bad years and consequently, the amount of duty realized viz. Rs. 75,880 shows a decrease of Rs. 7,016 over that of the previous year.

The number of liquor shops remained stationary at 155.

Income from Shindi and Bhorlemad trees.

110. As stated in the last Report, a lease for three years ending in 1902 has been granted to Adavappa Jakati of Katkol for the taddy farm in the Gad-Hinglaj Taluka. On the expiry of one year's term of the lease for Bhudhargad Taluka, the same was granted for a period of two years to Narayan Gopal Pilankar of Shengav. The income from the farm of the two Talukas remains the same viz. Rs. 921.

111. During the year under review 30 offences against the Abkari Act were reported, against 73 in the preceding year. 36 persons were involved against 88. Of these 29 were convicted and the rest acquitted or discharged. Offences.

Stamps.

112. General stamps of the value of Rs. 27,354 were sold during the year under report against Rs. 23,486 for the preceding year. While the corresponding figures for the Court fee stamps were Rs. 33,795 and Rs. 28,958. The increase in the receipts from both is due to the fact that the restrictions on execution of decrees laid last year were removed. Sale proceeds and aggregate receipts and disbursements.

The amount of stamp duty and penalties realised by the Revenue and Civil Courts on unstamped and insufficiently stamped documents was Rs. 1,405. The contributions received from the Feudatories towards the establishment charges of the Stamp Office were Rs. 1,836. Rs. 410 were realised on account of court fees stamps in pauper suits and Rs. 2 on account of miscellaneous receipts. Thus the aggregate receipts amounted to Rs. 69,802 against 55,671.

The total expenses decreased from Rs. 10,348 to Rs. 2,241 only as reams of paper were not required to be purchased this year.

Toll Funds.

113. The subjoined statement shows the receipts from tolls levied on the different roads in the Kolhapur State during the year under report as compared with those of the preceding year :— Receipts from tolls.

Of this, Rs. 3,037 were writen off as irrecoverable. The out-standings on account of the current year were 53,692 the corresponding figure for the preceding year being 57,977. The total amount of outstandings at the close of the year was Rs. 1,39,860. Of this, Rs. 1,08,795 are recoverable as the instalments of some have not fallen due and postponements have been granted to the amount of about Rs. 18,000. Measures are being taken for the recovery of about Rs. 74,000 and claims for Rs. 12,800 have been disputed.

The chief causes of the outstandings under head recoverable are given below :—

(1) Amount to be recovered by instalments which have not yet fallen due Rs. 14,710.

(2) Amount of which recovery is postponed Rs. 18,049.

(3) Amount for the recovery of which notices are issued or property is attached Rs. 74,545.

Medical Relief and Vital Statistics.

MEDICAL RELIEF.

117. The Medical Department of the State continued to be superintended by Dr. George Sinclair with his usual ability and zeal.

118. The following table shows the amount of relief afforded at the Albert Edward Hospital and the 15 Dispensaries in the Principality as well as their maintenance charges:— Amount of relief afforded.

119. There are two separate Dispensaries, named Her Highness Ahalyabai Deshi Davakhana and the other Her Highness Sakvarbai Yunani Davakhana. The number of patients treated there and the Maintenance charges incurred during the year under report and the preceding year are given below:— Ahilyabai, Sakvarbai Desh Dawakhanas.

Vital Statistics.

Births and deaths.

121 The following table shows the birth and death rates of the city of Kolhapur and of the Districts :—

From this it will be seen that the succession of bad years and the epidemics of cholera and small-pox have told upon the birth and death rates.

The death rate among the Hindus including the Jains is 40·5 percent against 27 of the previous year and among the Mahomedans it is 37·1 against 31·5.

Causes of deaths.

122. The principal causes of deaths were :—

Fevers which carried away 13,547 against 7,347, Bowel complaints carrying away 703 against 4,782 and cholera 6,070 against 99. Only 138 persons died from Plague against 3,521 of the preceding year. The deaths from injuries were 397 against 298, of which 270 or 68 percent were caused by drowning, 51 died of snake bites and 4 were killed by wild animals.

Scarcity of water and failure of the monsoon in 1899 caused a severe cholera epidemic, affecting every part of the Principality except Katkol. Smallpox too had assumed an epidemic form but owing apparently to the lasting effects of good vaccination, the percentage of recoveries was great. The following table will show the attacks, recoveries and deaths from each epidemic of the sub-divisions of the State :—

The results of the annual examination were fair. 74 out of 165 presented or 47·7 percent for the examination were successful.

The fees of the High School were reduced from January 1st as the existing fees proved rather exorbitant. The High School is better attended now.

Drawing Class.

CHAPTER III.

PROTECTION.

Legislation.

50. No new rules were passed during the year under report.

Military.

Military force.

51. The Military establishments of the State consist of two divisions (1) Kolhapur Infantry under a British Officer and (2) Red Coated Risala or His Highness' Body-guard commanded by a Native Officer. Information about the strength and cost of these establishments is given in Appendix V (Consecutive Enclosure No. 21).

Infantry.

52. The total cost amounted to Rs. 86,651 against Rs. 88,114 of the last year.

The number of marksmen in the regiment, as well as the figure of merit, obtained in the musketry course, rose from 162 and 64·25 to 232 and 67·69 respectively. The improvement is no doubt satisfactory. The drill and efficiency of the corps was good and out of the 29 recruits enlisted during the year, 18 having passed their course of drill and musketry satisfactorily have been drafted into the ranks.

The health of the regiment was generally good. The total number of deaths during the year was 8.

The conduct of the regiment has been generally good.

53. Captain W. M. P. Wood succeeded Lieutenant H. S. Strong and has been acting as Second in-command from the 20th December 1901.

Red Coated Risala.

Strength and cost.

54. The total strength at the end of the year was 156 and the cost of the Force amounted to Rs. 28,521. The conduct of the Risala was satisfactory.

Police.

Strength and cost.

55. The total strength of the Police force in the Principality was 841 at the end of the year against 805 of the previous year. The expenses of the force were Rs 83,888 against Rs. 94,543. The decrease is due to the fact that grain compensation was not required to be paid as in the previous year. (For further details Vide Appendix VI Consecutive Enclosure) No. 22).

Proportion of area and population to a police Sepoy.

56. The total area of the Principality is 3,125·3 square miles and the whole population 9,10,011. Thus it will be seen that the proportions of area and population for a police sepoy come to 3·72 square miles and 1,082 persons, respectively.

Strength and Cost in the Parent state.

57. The total number of Police force in the Parent State increased from 558 to 591 but the expenditure decreased from Rs. 72,728 to 63,790. The increase in the force is due to the establishment of two punitive posts, one at Kumbhoj, Peta Alte and the other at Salhali, Katkol Mahal and also owing to some temporary hands having been engaged for plague duty.

Education.

58. Of the total number of the Police force, 192 were able to read and write and 78 under instruction.

Conduct.

59. The conduct of the force was on the whole much better than that in the previous year, there being a decrease of 12 in the number of punishments (44 against 56), while 120 men were promoted and 14 rewarded for good work. Out of the 44 persons punished, 6 were dismissed and one was judicially dealt with.

Working of the Police.

60. The number of offences reported to the Police was 1,252 against 1,292 of the last year and that of persons arrested was 1,189 against 1,297. Of these 848 or 71·3 percent were convicted against 1,095 or 84·4 percent of the preceding year (For further particulars Vide Appendix VII Consecutive Enclosure No. 23.)

Stolen property recovered.

61. The precentage of the property recovered was 43·5 against 69. The percentage for State (proper) was 42·74 against 71·28 which is not satisfactory. The decrease is due to the fact that two dacoities involving property amounting to about Rs. 15,000 remained untraced at the close of the year. (Further details will be found in Appendix VIII Consecutive Enclosure No. 24).

Cognizable and non-cognizable offences.

62. The total number of crimes of all descriptions committed during the year amounted to 4,408 against 4,390. In all 7,100 persons against 7,224 were put upon their trial of whom 2,808 or 39·54 percent were convicted and 691 against 580 remained awaiting trial. 3 were sentenced to capital punishment and 5 to transportation. (For further particulars see Appendix IX, Consecutive Enclosure No. 25.)

Village Police.

63. The number of village police was stationary.

Criminal Justice.

Number of Criminal Courts.

64. The number of Criminal Courts in the Pricipality was 64 against 57 of the preceding year. It consists of the following courts :—

1 His Highness' Court.

1 Political Agent's Court exercising residuary Criminal Jurisdiction in the Feudatory estates.

10 Courts of Session :—

2 Sessions Judges' Courts (one of the Chief Judge and the other of the Joint Sessions Judge.)

8 Courts of Feudatoties having limited powers of sessions Judges. During the year three courts were added, *viz.* those of the Senapati of Kapshi, the Himat Bahadur and the Sarlashkar Bahadur who were newly invested with powers.

52 Magistrates' courts as tabulated below :—

The number of District Magistrates is increased by one, owing to the fact that the Karbhari of Kapshi exercising the powers of a 2nd Class Magistrate was invested with the powers of a District Magistrate. The increase of two in the number of 1st Class Magistrates is due to the Karbharis of Himat Bahadar and Sarlashkar Bahadar being invested with the powers of a 1st Class Magistrate. Two Second Class Magistrates one at Chanwad and the other at Ajra were newly appointed, while the Kapshi Second Class Magistrate was made District Magistrate as stated above. Thus the number of Second Class Magistrates is increased by one only. The number of Third Class Magistrates remains unchanged.

Work done by the Magistrates.

65. Altogether 7,100 persons were brought before the Magistrates inclusive of the previous year's balance of 580; of whom 6,409 persons were dealt with, while 691 persons remained pending trial at the close of the year. The percentage of acquittals and discharges was 50 against 54 of the last year. (For further particulars see the following para and Appendices IX. and X Consecutive enclosures Nos. 25 and 26.)

66. The following table will show the work of Magistrates in the Feudatory Estates :—

An amount of Rs. 11,424 against Rs. 1,893 having been granted as remissions, the out—standings at the close of the year amounted to Rs. 1,54,716.

The increase in the demands is mainly due to the introduction of the revised rates of assessment in the Alte Taluka and to the Jamabandi of the Nazarana to be received from Jahagirdars. The increase in remissions is due to the Igatpuri system of concessions being adopted in the Alte Taluka where the rates of revision survey were introduced.

Outstandings on account of the former and the current years.

Outstanding balances.

149. The out—standings of revenue on account of former years amounted to Rs. 1,39,861 on the 6th of June 1901 against Rs. 1,38,742 on the corresponding date of the preceding year. 150. The demands from this, including the outstandings of the previous years, were Rs. 2,85,381 against Rs. 2,73,081, of which Rs. 1,09,796 against Rs. 1,11,822 were collected, leaving a balance of Rs. 1,75,585. The increase in demands is chiefly attributable to the sale of the Abkari farm for a larger amount while the decrease in collections is due to the non-recovery of any outstanding balance during year under report.

Vaccination.

Vaccine operations.

160. The famine of 1896-97 followed so soon afterwards by seasons of scarcity and drought in 1899 along with the presence of Plague and Cholera, has tended greatly to disturb the birth rate and render it a matter of much difficulty to obtain the children for vaccination. The reappearance of Plague in almost all parts of the Principality during the year has also greatly hindered the work of vaccination as will be seen from the numbers given in the following table:—

Name of District.	Operations by whom performed.	Number of persons vaccinated in.		Result.			
				Successful.		Unsuccessful.

Animal vaccination.

161. Except at the head quarter station of Kolhapur, where it has been found necessary to keep up a perennial supply of fresh lymph, animal vaccination had practically to be given up every where in consequence of the presence of plague in the Districts, the Extra expenditure incurred on this account was Rs. 324 against Rs. 970 of the previous year.

Inspection work.

162. The Darbar Surgeon inspected 114 against 187 towns and villages while the assistant Superintendent of vaccination and sanitation inspected 179 against 254. For that purpose they had to travel 632 and 1,369 miles respectively. The Darbar Surgeon personally inspected 1,734 childern or about 28 percent of the total number vaccinated while the assistant superintendent of vaccination inspected 4,281.
